FREAK BLIZZARD STRIKES! Sixty Hours of Blinding Storm Puts Snow-Fighting Equipment to Real Test

When the cloud-blasted storm day few could guess what lay ahead for the snow-fighting men and equipment of the highway department. But this didn't make the task any easier in the driving, blinding blizzard raged unabated for sixty hours, blocking roads in northern Ontario and northern United States almost as fast as the plows could open them. Tractors, trucks, and snowplows fought their battle day and night, partially without let-up, being only when the storm blazed out all visibility. Thanks to the courage of the men and the efficiency of the equipment, traffic movement followed close on the heels of the blizzard. Thus, once again, the highway departments proved the value of their preparations, with the best in man-power and equipment ready for disaster call when disaster strikes.

INTERNATIONAL Trucks and Tractors

INTERNATIONAL Harvester quality products are closely identified with the country's highway system, their services beginning with the clearing of roads and construction of roads and continuing on through all types of maintenance work and more recent International Trucks and Tractors—active roles in road building and snow fighting—serve commerce, industry, and the motoring public, making it possible for people and goods to move in their accustomed ways with modern-day speed and dependability.

If you have a job that can be done by truck or tractor—whether it is a building or maintenance job or a piece of routine hauling that calls for fuel efficiency—call on the nearest International Harvester dealer or Company-owned branch for recommendations. International Trucks are available in sizes ranging from Half-Ton Light Delivery to Heavy Duty line. Wheelers International Tractors are built in wheel and crawler types for all kinds of industrial power work. Complete information will be sent on request.

This big International line Wheeler was in the thick of the fight to clear the roads of the Niagara Peninsula open during the blizzard blizzard. The wheel and crawler are workhorses in the blizzard during the long days and nights, driving the big plows through the driving snow. Power-assisted, easy to use, and with high performance in even the toughest conditions, the International line Wheeler wherever unusually heavy-duty jobs call for it.

WHY DON'T YOU TAKE SAL HEPATICA?

SAL HEPATICA'S DOUBLE ACTION

1. CLEANSSES THE SYSTEM 2. COMBATS ACIDITY

"A cold is no small matter," caution modern physicians, "and even a strong constitution can be undermined by colds that drag on and on." Today they advise doing two simple things to help throw off a cold more quickly:

1. Remove wastes from the intestinal tract gently, thoroughly.
2. Help Nature combat the acidity that often accompanies a cold.

You can do both these things at once by taking Sal Hepatica!

For not only does this mineral salt cleanse the system—quickly, gently, thoroughly—but Sal Hepatica's alkaline (not acid) formula helps Nature combat acidity, too.

That's why Sal Hepatica is so effective. Its double action sets right the system and just out-bids the coldness which

gives a cold a chance to get started, and prevents a mere "colds" from becoming a full-blown cold. So, at the first sign of a cold, take two teaspoonsful of Sal Hepatica in glass of water, for instance, get a lot of rest and spend a day or two in bed and tell a doctor if your cold is severe.

It pays to fight a cold the natural way. Get a bottle of Sal Hepatica today and check your cold before it takes hold.

The two new 1998 Ford cars are different in appearance, appointments and price—but they are back to the same fine standards of mechanical excellence.

Their modern V-8 powerplant provides smooth 8-cylinder manufacturing which only much more expensive cars can equal. And along with that high standard of performance, Ford seems repeat as to 27 miles per gallon with the 24-horsepower V-8 engine.

The De Liao car is clearly new in appearance. Sedans are longer, with more room, larger luggage space, finer appointments. The Standard car—even lower in price—has graced new lines, longer hood, roomier interiors.
